

GARMENT CONSTRUCTION

With steep retail competition and quick style changeovers, manufacturers, retailers and buying agents are faced with the challenges of offering a wider product range, a quicker product development cycle in a shorter production lead-time. Thus merchandisers, garment technologists and designers are required to develop designs and respective technical packages including production design that are feasible in production as well as achieve accuracy in sample interpretation. The understanding of how garments are constructed, the various seams and stitches utilization in various components within the garment is critical. Thus fundamental knowledge will reduce redundant designs that cannot be replicated in mass production and eliminate misinterpretation in sampling.

PERFORMANCE OUTCOMES

- Apparel industry structure and steps in apparel manufacturing process
- Identify and illustrate various stitches and seams as per Industry standards
- Learn to recommend suitable functional and decorative stitch and seam construction for selected fabric types and garment styles as per industry practice
- Identify the various pattern pieces of selected basic garments
- Analyze and articulate the sewing operations of selected garments

ENTRY REQUIREMENT

- Currently working in the apparel industry or aspire to work in the apparel industry
- Possess university, diploma or high school certificate
- Ability to read, write and comprehend English proficiently
- Basic computing skills and knowledge of Microsoft office

COURSE FEE

Non-GMAC Members	USD\$322.00
GMAC Members	USD\$280.00

COURSE DURATION

Training Hours	24
Assessment Hours	2
Total Hours	26

GRADUATION REQUIREMENTS

Student must fulfil the following requirements:

- 75% attendance rate of total training hours per module
- Assessed and be competent for every module

CERTIFICATE ISSUANCE

Upon successful completion of the course, student will be awarded the CGTI Certification which is nationally endorsed and recognised by industry partners.

ATTITUDE AND KNOWLEDGE

- Functional stitch types and applications
- Decorative stitch types and applications
- Seam types and applications
- Pattern pieces
- Sewing operations
- Manufacturing processes
- Different types of folders to increase sewing ease and productivity

WHO SHOULD ATTEND

- Assistant Merchandisers to Merchandise Managers
- Marketing Executives and Managers
- Product Development Executives and Managers
- Sourcing Executives and Managers
- QA Auditors, QC Inspectors and QA/QC Managers
- Designers
- Buyers
- Production Supervisors and Managers
- Industrial Engineers, Work Study Officers
- Tailors
- Pattern Makers/Sample Makers
- Technicians
